# WORK EXPERIENCE

2007 to present Full professor of Agronomy and Field Crops at the Department of Agrifood, Environmental and Animal Sciences, University of Udine;
1996-2007 associate professor of Agronomy and Field Crops at the Department of Agricultural and Environmental Science, University of Udine;
1992-1996 associate professor of Agrometeorology at the Department of Agronomy and Plant Genetics, University of Napoli Federico II;
1986-1992 researcher at the Institute of Field Crops, University of Udine;
1984-1986 research fellow at the Institute of Agronomy, University of Padova.

#### **EDUCATION AND TRAINING**

- 1984 degree in Agricultural Science, University of Padova (cum laude); dissertation in field crops (soybean and rapeseed);
- 1977 graduation in humanities, Liceo Classico C. Marchesi, Padova.

skills       -       director of the Department of Agrifood, Environmental and Animal Sciences, University of Udine (about 120 faculties, 65 staff) (2015-21);         -       president of the FVG Center for Research and Technology Transfer in Agriculture (2015-21);         -       director of the Department of Agricultural and Environmental Sciences, University of Udine (2012-21);         -       deputy Rector for Quality Assurance, University of Udine (2012-21);         -       deputy Rector for Quality Assurance, University of Udine (2012-13);         -       member of the Education Committee, University of Udine (2010-12);         -       coordinator of the undergraduate and graduate courses in Environmental Science, University of Udine (2006-2012);         -       member of the regional working group on the Nitrate Directive (2007-09);         -       member of the vorking group on the Regional Development Plan (2004-06);         -       evaluator of EU RTD projects "Quality of life and management of living resources (2001-02);         -       member of the treation Jate of nutrients and herbicides in cultivated filelds; Agrometeorology, crop phenology and ecophysiology of field crops; lirigation and drainage, lirigation scheduling, evaluation of novel farming systems (including organic), fate of nutrients and herbicides in cultivated filelds; Agrometeorology, and Crops Hammer management, use and reuse of wastes.         Author of more than 120 scientific papers and of a handbook of Agrometeorology, he is the Editor in Chrief the Handbook of Agronormy published under the suspicies of the It	Organisational/managerial	-	Deputy Rector for	or Quality Assurance	, University of Udine	e (2022-)			
director of the Department of Agricultural and Environmental Sciences, University of Udine (about T0 faculties, 40 staff) (2013-15);     member of the Academic Senate, University of Udine (2012-21);     deputy Rector for Quality Assurance, University of Udine (2012-13);     member of the Education Committee, University of Udine (2010-12);     coordinator of the undergraduate and graduate courses in Environmental Science, University of Udine (2008-2012)     member of the regional working group on the Nitrate Directive (2007-09);     member of the morking group on the Regional Development Plan (2004-06);     evaluator of EU RTD projects "Quality of life and management of living resources (2001-02);     member of the Board of Advisors of the Italian Society of Agronomy (1996-2007);     assistant Editor of the Italian Journal of Agronomy (1996-2005).     Research The research interests are focused on: Agriculture-environment relationships, evaluation of novel farming systems (including organic), fate of nutriners and herbicides in cultivated fields: Agrometeorology, crop phenology and ecophysiology of field crops; Imgation and drainage, imgation scheduling, evapotranspiration and crop yield; manure management, use and reuse of wastes. Author of more than 120 scientific papers and of a handbook of Agronomy to Plastes. Author of more than 120 scientific papers and of a handbook of Agronomy (1996-1905).     Teeching During his career, prof. P. Ceccon was in charge of the courses of Vegetable Crops (1991), University of Udine; Agrometeorology, 1992-1995) and Ferritization of Field Crops (2003-), Statistical Methods in Agriculture (2004-2021), and Agronomy (2022-), University of Udine. Vice-President of the Fondazione Attilio Maseri (2024-); member of the Academia del Georgofii, Firenze (2015-); vice-President of the Italian Society of Agronomy (2003-), Statistical Methods in Agriculture (2004-2021), and Agronomy (2023-), in member of the Academi	skills	-							
70 faculties, 40 staff) (2013-15);         • member of the Academic Senate, University of Udine (2012-21);         • deputy Rector for Quality Assurance, University of Udine (2012-13);         • member of the Education Committee, University of Udine (2012-13);         • member of the regional working group on the Nitrate Directive (2007-09);         • member of the regional working group on the Nitrate Directive (2007-09);         • member of the working group on the Regional Development Plan (2004-06);         • evaluator of EU RTD projects "Quality of life and management of living resources (2001-02);         • member of the board of Advisors of the Italian Society of Agronomy (1996-2007);         • assistant Editor of the Italian Journal of Agronomy (1996-2005).         Research       The research interests are focused on: Agriculture-environment relationships, evaluation of novel farming systems (including organic), fate of nutrients and herbicides in cultivated fields; Agronomy (1996-2007);         • assistant Editor of the Italian Journal of Agronomy (1996-2007).
